THEATER ANNEX PROGRESS REPORT

As most of you know, plans are underway for the construction of a "Theater Annex," an addition to the back of the existing Auditorium. Mills, Clagett and Wening, the local architectural firm selected to design the Annex, is making good progress; it is hoped that construction can be started before the end of this year and that it can be completed by the end of 1980.

Though intended primarily to serve the needs of the Drama Department, the Annex will benefit all prospective users of the Auditorium, since it will lessen the need for the Drama Department to tie up the stage for long periods of time for set construction and rehearsals. The Annex will contain: one classroom, shop (for construction of stage scenery), rehearsal room, costume shop, offices and a lounge/kitchenette.

Drawings of the proposed "foot-print" and floor plan of the Annex are on display in the corridors of HMB. If you have any questions concerning this project, feel free to contact Jeff Grandel, ext. 5606 or Bob Harmon, ext. 5392.

Mills, Clagett and Wening will also design the new Field House (large gym); a progress report on plans for this building will appear in a later edition of OTG.

NATIONAL N.O.W. CONFERENCE PLANNED

The National Organization for Women (NOW) is in the midst of planning its 12th annual nation wide conference. This year's conference will be held at the Bonaventure Hotel in downtown Los Angeles, October 5th through the 7th. The annual conference usually attracts 3,000 to 5,000 feminists from all parts of the United States.

This year's event is even more important in that it marks a time when NOW has firmly committed itself to extend full participation to disabled feminists. At last year's national conference NOW passed a resolution mandating that all of NOW's organizational levels become accessible to persons who are disabled. Implementation of this resolution means that all of NOW's meetings, including the national conference, be held in places and in a manner which will insure barrier-free access.

In accordance with the mandate this year's conference planning committee has an official sub-committee entitled "Services to Disabled Feminists." The primary goal of this committee is to make the conference fully accessible to disabled persons. The committee is negotiating with the hotel to make whatever physical plant adaptations possible. The committee is arranging to have interpreters for hearing impaired conference attendees.

The National Organization for Women is hopeful that many persons who are disabled will contact the conference planning office for further information about attending the conference. To receive this information contact;
